

# CHARU MEHRA

## FULL STACK DEVELOPER | REACT.JS · NODE.JS · AI-INTEGRATED APPLICATIONS

Faridabad, Haryana (NCR) | 7982966282 | charumehracm2004@gmail.com | github.com/Charumehra

### PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building and deploying React.js applications integrated with REST APIs, JWT authentication, and AI-powered features using the Google Gemini API. Skilled in component-based frontend architecture, state management (Redux Toolkit, Context API), and Node.js/Express/MongoDB backends. Comfortable working in fast-paced, on-site teams and eager to apply AI-assisted development practices to build scalable, user-friendly web applications.

### TECHNICAL SKILLS

**Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Redux Toolkit, Context API, Responsive Design

**Backend:** Node.js, Express.js, REST API Design, JWT Authentication

**Database:** MongoDB

**AI & APIs:** Google Gemini API integration, AI-powered feature development, Puppeteer (PDF automation)

**Tools & Platforms:** Git, GitHub, VS Code, Postman, Figma, Vercel, Render

### EXPERIENCE

#### Software Development Intern — Prodesk IT

Feb 2026 – Present

- Developed and maintained full-stack web applications using React.js, Node.js, Express.js, and MongoDB, contributing to production-ready features.
- Built responsive, accessible user interfaces and integrated REST APIs with secure JWT-based authentication.
- Debugged and optimized frontend components using browser developer tools to improve performance and cross-browser reliability.

#### React Developer Intern — The Entrepreneurship Network

2025

- Built responsive web applications using React.js, JavaScript, and Tailwind CSS, translating design mockups into functional UI.
- Created reusable, modular React components and collaborated with a cross-functional team to ship user-facing features on schedule.

### PROJECTS

#### CareerForge AI — Full Stack AI Career Platform

*Tech:* React.js, Context API, Tailwind CSS, Node.js, Express.js, MongoDB, JWT, Google Gemini API, Puppeteer

- Built an AI-powered career platform generating ATS-friendly resumes, resume analysis, ATS scoring, and personalized interview questions via the Gemini API.
- Implemented secure JWT authentication and Context API state management across the application.
- Engineered PDF upload/parsing and automated professional PDF resume generation using Puppeteer.

#### EduCore — Full Stack Education Management System

*Tech:* React.js, Redux Toolkit, Tailwind CSS, Node.js, Express.js, MongoDB, JWT

- Built a role-based education management platform with secure authentication and responsive dashboards for multiple user types.
- Managed complex application state using Redux Toolkit and designed RESTful APIs backed by MongoDB for scalable data handling.
